

SEPTEMBER 2025

Avocet Aviation appointed Textron Aviation Authorised Parts Reseller

Avocet Aviation signs an enhanced contract to become an Authorised Textron Aviation Inc Parts Reseller for United Kingdom, Ireland, Channel Islands, Isle of Man, Iceland and Greenland.

The agreement covers the supply of Jet parts, Beechcraft Turboprop parts, Cessna Caravan parts and Piston parts to aircraft owners, operators and maintenance facilities.

The agreement continues and enhances a multi-year relationship and ensures that parts are delivered quickly and efficiently to customers operating and maintaining Textron Aviation aircraft within the region.

The agreement enhances Textron Aviation's robust global customer support network with parts supplied by Avocet Aviation, an independently owned aircraft parts stockist, established 40 years ago in 1985.

"This agreement builds on our long standing and valued relationship with Textron Aviation, allowing us to provide Cessna and Beechcraft aircraft owners, operators and maintenance facilities with an enhanced range of parts locally available, to reliably support their operation. The combined expertise and experience of our companies, together with a customer focussed approach which prioritises understanding and meeting customer needs, preferences, and expectations will benefit our existing and new customers." said Gareth Roberts-Smith, Sales Manager at Avocet Aviation.

About Avocet Aviation

Avocet Aviation is an independently owned aircraft parts distributor, focused on providing quality parts and an elevated level of customer service to the aviation industry. Holding in excess of 35,000-line items in stock for a variety of aircraft types.

An authorised parts reseller for Textron Aviation, Avocet Aviation hold one of the largest stocks in Europe of factory new and overhauled parts for turboprop aircraft at extremely competitive pricing.

Since its foundation in 1985, Avocet has striven for continual improvement in quality assurance and is an ISO 9001:2015 approved organisation and all parts are supplied with FAA8130 (dual release), EASA Form1, CAA Form1 or OEM certification and full traceability.
